ACTIVITY DETAILS

TRAINING OF TRAINERS (ToT) FOR THE TEACHING OF THE PHILHEALTH LEARNER'S MATERIAL (PLM) TO PUBLIC SCHOOLS IN REGION XI June 15, 2017

I. RATIONALE

With the integration of the health information to the Grade 10 Curriculum, PhilHealth designed the PhilHealth Learner's Material (PLM) to serve as reference for MAPEH teachers and coordinators in teaching the subject on Consumer Health.

The PLM hopes to properly educate and provide complete basic information on the National Health Insurance Program (NHIP). It highlights the role of PhilHealth in attaining the vision of Universal Health Care (UHC) and ensuring health coverage for all Filipinos. The material has also been approved by DepEd for academic use and implementation.

With this, PhilHealth in coordination with DepEd, has initiated a nationwide roll-out of the PLM to public schools through the conduct of training/orientation to concerned DepEd personnel. The activity will involve an in-depth orientation on the NHIP, walk-through of the material and simulation among the participants. As part of monitoring and evaluation, there will also be an actual classroom observation and gathering of feedback. This activity ultimately hopes to rally the support of educators and young individuals, train them as advocates and champions of the NHIP and instill appreciation of the social health insurance program.
