Division Advisory No. 110, s. 2018
August 2, 2018

**Science Programs of Pivot Edutainment – Climate Change Program,
Astronomy Program and Google Expedition**

1. Attached is the Letter of CHERRYMAE V. SANTA ANA, Marketing Manager of Pivot Edutainment with the information on their Science Programs on Climate Change Program, Astronomy Program and Google Expedition to be introduced to schools. This Office interposes no objection for the said activities which are aimed at providing learning experience while having fun.
2. However, it is reiterated (1) that participation of the students and teachers shall be voluntary, (2) that it shall be subject to non-disruption-of-classes policy as stipulated in the DepED Order No. 9, s. 2005 entitled, "Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith," (3) that necessary arrangements shall be made with the School Head and the Parent Teacher Association of the school and transparency in all dealings shall be observed, and (4) that no government funds shall be utilized for the conduct of said activities. Further, schools shall ensure that no learner shall be disadvantaged in any form.
3. For information, guidance and reference.

WINNIE E. BATOON, EDD, CESE
Officer-in-Charge
Office of the Schools Division Superintendent

2 August, 2018

MR. WINNIE E. BATON, Ed.D., CESE
OIC – Superintendent
Schools Division Digos City

SUBJECT: Request for an Advisory for the Science Programs of Pivot Edutainment – Climate Change Program, Astronomy Program and Google Expedition to be presented in different educational institutions in Digos City for the Academic Year 2018-2019

Dear Mr. Baton:

Experience has long been proven to be an effective way in instilling learning to even the youngest minds. Given the highly advanced technology that we are currently enjoying, we now have the opportunity to utilize a wider range of opportunities to educate aside from the traditional classroom set up and seminars. We in Pivot Edutainment recognizes the need to adapt to the new and diverse landscape of learning to be able to provide high quality education. By integrating activities that are equally fun and educational, students are sure to enjoy while learning some of the most pressing and socially relevant issues of our time.

With this, Pivot Edutainment would like to introduce our different programs to you and to your humble office. These programs are all designed to offer the participants a one-of-a-kind learning experience with the help of some of the most advanced technology of our time. All of these programs are designed to reach and involve as much as to entertain. We present new and relevant knowledge in a powerful and captivating medium which inspire thoughtful and lively learning experience.

Given the nature of our business, we recognize and respect the fact that we are bound by all of the memorandums and laws that are issued and implemented by Department of Education (DepEd). In this regard, we would like to discuss some of the memorandums and laws that are currently in place, and how we plan to work within the given boundaries and restrictions.

In line with **DepEd Memorandum No. 47, s. 2017** which is entitled Moratorium on DepEd educational field trips and activities outside of the school premises, we at Pivot Edutainment commits to offering fun and educational activities right in the comforts of the school grounds to ensure the security and safety of all the students.

With regard to the **"Time on Task"** Policy and the **"180 days teaching and learning guidelines"**, we will be working closely with the Science Department of the school/s to make sure that our activities, which are all science-related, will only take up the time for their science period. Thus, ensuring that there will be no disruption of classes.

Being aware of the **Ganzon Law** which prohibits the selling of tickets by teachers, the selling and collection for our tickets will be through the Parent-Teacher Association of the school/s. Also, this activity will not be compulsory to the students.

With this, we would like to request for an advisory of this voluntary and non-compulsory program to all public and private schools in Digos City for the Academic Year 2018-2019. Rest assured that we will work closely with your office, in accordance to its vision and mission.

We will be looking forward to your positive response regarding the matter.

Thank you and more power.

Respectfully yours,

A handwritten signature in blue ink, appearing to read "Cherry Mae V. Sta. Ana".

CLIMATE CHANGE PROGRAM

Climate Change : Understanding, Reducing and Adapting

This program attempts to give a basic understanding on the causes and effects of climate change, and ways on how to mitigate the said phenomenon.

Activities

Dome Theater	3D Film Showing	Interactive Booth
30-minute documentary about understanding the cause and effect of climate change. - Dome Size: 7M/5M - Suitable for general audiences. - Capacity: 100 students per show	- Mobile 3D System Full HD 120-inch auto silverscreen - Different films that are suitable for preschool, elementary, and high school students.	An interactive exhibit featuring renewable sources of energy.

ASTRONOMY PROGRAM

From Earth to The Universe

A stunning voyage through space and time conveys, through sparkling sights and sounds, the Universe revealed to us by science.

Activities

Dome Theater	3D Film Showing	Interactive Booth
30-minute documentary that will bring the viewers to a one-of-a-kind journey outside planet Earth and into the vast universe. - Dome Size: 7M/5M - Appropriate for general audiences. - Capacity: 100 students per show	- Mobile 3D System Full HD 120-inch auto silverscreen - Different films that are suitable for preschool, elementary, and high school students.	An interactive exhibit featuring different telescopes, space augmented reality boards & rocket launching activity.

Google EXPEDITION

A virtual reality teaching tool that lets you lead or join immersive virtual trips all over the world — Get up close with historical landmarks, dive underwater with sharks, even visit outer space.

DURATION OF THE PROGRAM

The whole event runs for approximately 2 hours simultaneously, so as not to disrupt the ongoing classes of the students and teachers.

TARGET IMPLEMENTATION

The school may choose the most comfortable date to hold the event. However, a reservation must be done at least a month before the event schedule.

We are happy to share with you some of our clients during the previous years

COMPANY OVERVIEW

Pivot Edutainment offers mobile educational events nationwide. We transform school gyms and common classrooms into a powerful science learning center. Our programs are designed to give the students a fun, engaging, and one-of-a kind learning experience. Students can explore our program through our digital dome theater, 3D films, and hands-on activities.

WHY US

- The first to develop an Interactive Mobile Program especially designed to promote Climate Change Awareness.
- The first in the Philippines to design a 3D System for mobile use in schools.
- Catered more than 400 schools in the past 4 years from both public and private schools.
