Dear Sir:

Greetings!

The Ateneo de Davao University Junior High School is pleased to host the *RISE 2019: Empowering Teachers to Equip the Next Generation of Innovators* in its Matina Campus on May 7-9, 2019. A team of scientists/instructors from the University of Toronto and the University of the Philippines Diliman led by Dr. Mayrose Salvador of the University of Toronto, the Pueblo Science Executive Director and DOST Balik Scientist will facilitate the workshop. The camp is prepared especially for junior and senior high school science teachers.

"The program aims to 1) advance science, technology, engineering and math (STEM) education in low-source communities globally and 2) improve the long-term capacity of such communities to design and utilize innovations that can address region-specific concerns". (Pueblo Science)

In this connection, we would like to invite Junior and Senior high school teachers to this rare opportunity to be working with the Pueblo Science Instructors/Scientists who are all genuinely excited about Science. A registration fee of P 2,500 will be collected per teacher-participant. The payment will cover three (3) meals for lunch, six (6) snacks, materials, kit and certificate with equivalent CPD units (CPD units are still in the process as of this time).

The workshop guarantees you experiments/activities that are intellectually stimulating, doable, and fun-filled.
