Regional Director, Office of the Regional Director
Department of Education - Region XI

**Strategic Research and Development Center Inc. and
Davao Association of Catholic Schools invites you to join**

RESEARCH WRITING, STATISTICAL AND QUALITATIVE DATA ANALYSIS SEMINAR-WORKSHOP

Dear Dr. Fetalvero,

The Strategic Research and Development Center Inc. (Strand-Asia Inc.) is an authorized reseller and a training institution for IBM SPSS here in the Philippines. Strand-Asia Inc. is also a market research company that caters both local and international client.

Strand-Asia Inc. has been operating for 8 years now. Our main goal as a training institution (for IBM SPSS) is to educate and shape the analytical intelligence of our participants when it comes to both research and statistics. Our vision is to have a significant impact on the capacity and knowledge of our participants in research and statistics.

The in-depth seminar-workshops aims to gather participants who are writing their research paper, academicians (secondary, tertiary and postgraduate) and government employees whose job is to write a research and analyze data.

Our main objective for the *Research Writing and Statistical Analysis In-depth Seminar Workshop* is to teach the practice and art of research writing and statistical analysis. The in-depth-seminar workshop aims to teach the participants the standard of research writing, different methods of data collection, sampling, question writing, questionnaire design and the preparation of data for analysis. Furthermore, the seminar-workshop will also introduce participants to statistical analysis, it will exhaustively and thoroughly discuss the underlying assumptions and the research question that each statistical test answers.

Our main objectives for *Quantitative and Qualitative Statistical Analysis In-depth Seminar-Workshop* is to build a clear foundation and understanding of how participants will utilize statistical tests. This seminar-workshop will introduce both parametric tests and non-parametric tests including regression analysis. By the end of the

seminar-workshop participants will easily distinguish which statistical test will help solve the research problem. Furthermore, introduce participants on how to analyze open-ended question that will provide depth to their research and findings. Years ago, qualitative analysis is difficult and many debates on how to analyze qualitative data surfaced. This seminar-workshop aims to introduce a new method in analyzing qualitative data easily.

For *Intermediate Statistical Analysis Seminar-Workshop*, our main objective is to teach the practice the art of statistical analysis and build a clear foundation and understanding of how participants may utilize statistical tests that will be presented and discussed during the seminar-workshop. This seminar-workshop will introduce parametric tests, non-parametric tests, regression analysis, and complex statistical analysis. By the end of the seminar-workshop participants will easily distinguish which statistical test will help solve the research problem.

In lieu to this, we are bringing our seminars in **Davao City**, this coming **November 2019**, at **BROKENSHIRE HOTEL-RESORT & CONVENTION CENTER** Brokenshire Heights, Madapo, Davao City.
