GBF TEACHSTEM MASTER'S DEGREE SCHOLARSHIP PROGRAM

RATIONALE

The Gokongwei Brothers Foundation (GBF) has dedicated itself to contributing to the country's progress by providing underprivileged but deserving students with access to education, especially in the fields of *Science, Technology, Engineering, and Mathematics (STEM)*. International studies like the Program for International Student Assessment (PISA) reflect Philippine performance in math and science to be at the bottom among other countries¹ and that a 4.4 year learning gap in higher education exists between the Philippines and the highest performing educational systems.² GBF seeks to strengthen educators' professional development, create content, and scale access to quality education. One of the ways that GBF aims to reach its ambition of benefiting 10,000 educators and 1,000,000 learners by 2025 is through the TeachSTEM Scholarship Program.

PROGRAM DESIGN

Recognizing the significant role of educators in building the future of our next generation, the TeachSTEM Master's Degree Scholarship Program was established to develop and strengthen quality STEM education and create a STEM-oriented culture among Filipinos. It supports current K-12 science, technology, and mathematics teachers as well as college instructors teaching a STEM-related course acquire their master's degree.

To date, GBF supports a total of 79 master's degree students completing a degree in Education specializing in the fields of Science, Technology, and Mathematics who are expected to serve in the K-12 or tertiary education after completion of their respective programs.

TEI PARTNERS

Recognizing that the work cannot be done alone, GBF partners with Teacher Education Institutions (TEIs) that have proven to be centers of excellence. Applicants to both programs undergo a rigorous screening process and retain their scholarship by maintaining excellent academic performance. To date, we have a total of 36 partner TEIs across the Philippines, 34 of which are partners for the master's degree level.
